

💧 Earth's Water 💧

Task: Use a camera to capture water in our community and compile a poster. Select one of the topics below:

How do
Australians use
water?

How is water
used at school?

Water in our
life!

How is water
polluted?

What are our
responsibilities in
protecting and
conserving water?

How can we
protect our
water?

Your photos may be digital images, or prints from a photo shop. They must be photos that you have taken yourself, not photos from magazines or the internet.

Criteria (things you need to do):

- Poster detail:
 - Size- A2 (provided in class)
 - Heading (see above headings)
 - Border
 - Name
- On the poster:
 - Include at least 6 photos
 - Each photo must have a description – 1 paragraph (4–5 sentences) in length (eg. What is it a photo of? Where was it taken? What information can you give about your photo? How does it relate to the topic you chose? Any other interesting information)
- Presentation:
 - Neat, colourful, creative, eye catching

Planning Page

Which topic would you like to focus on? Why is this one more suitable for you than the other topics?

Where do you think you will go to take the photos? Why?

What will you take photos of? What kind of conditions do your photos need to be taken in (eg. light, dark, shade, wet, dry, should not matter)?

What kind of photography shots will you take? Close ups, long shots etc?
